

Half Day Introduction to Digital Photography - £75
09.00 - 13.00 or 14.00 - 18.00

This half day beginner's course is aimed at those who are complete beginners to photography and want to discover the manual controls of your camera.

This course will specifically cover:

Half Day:

The half day course will include workshops in:

- How the camera works
- Aperture
- Shutter speed
- ISO
- An Introduction to Depth of Field
- It will also include the rules of composition and how you can apply them creatively to improve your photography.
- Q & A session

We don't like too much theory and whilst you will learn the important lessons of how the camera works, we'll also get you out & about using your camera and taking photographs.

For course commencing at 09.00, please make sure you are there by 08.45 and for course commencing at 14.00, please make sure you are there by 13.45.
